

2009 IEEE Taiwan/Hong Kong/Macau Joint Workshop on Information Theory and Communications

10 – 11 August 2009

The University of Macau, Macau S.A.R., P. R. China

<http://twhkmo09.eee.umac.mo>

Call for Participation

The [2009 IEEE Taiwan/Hong Kong/Macau Joint Workshop on Information Theory and Communications](http://twhkmo09.eee.umac.mo) will be held at University of Macau, Macau, China, on 10 (Monday) and 11 (Tuesday), August 2009. The workshop is to promote information exchange between the researchers in Macau, Hong Kong and Taiwan in the fields of information theory and telecommunications. There will also be a tutorial on network coding, co-presented by [Raymond Yeung](#) and [Sidharth Jaggi](#).

The technical talks in the workshop will be given by invited speakers only but all are welcome to join the workshop.

Poster presentations of recent research results are solicited in (but not limited to) the following areas: Shannon theory, coding and modulation technology, communication networks and systems, network coding, cryptography and source coding and signal processing. For poster presentations, please contact the following technical program co-chairmen by 1st August, 2009.

Francis Hsiao-Feng Lu at francis@cc.nctu.edu.tw (for Taiwan),

Daniel Palomar at palomar@ust.hk (for Hong Kong)

Mak Peng Un at fstpum@umac.mo (for Macau)

Please include the titles and abstracts in the messages.

Registration and other information about the workshop can be found at the web site:

<http://twhkmo09.eee.umac.mo/>

The workshop is co-sponsored by the Chung Chi College, the Chinese University of Hong Kong, the IEEE Hong Kong IT Chapter and the IEEE Taipei IT/COM Chapter, the IEEE Macau Section and the University of Macau.
